CORRESPONDENCE

That Cancelled Performance

Kelowna, B. C.,
June 24, 1911.

To the Editor,
Kelowna Courier.

Sir,— It is with much regret that I am obliged to cancel the performance of "The Importance of Being Earnest," at Kelowna to-night. The reason is this: Last Tuesday I came to Kelowna and arranged with certain members of the Dramatic Society for the loan of scenery necessary for the play. Everything was arranged as I imagined satisfactorily; but to my surprise, when I arrived on Friday to make final preparations I was told that under no consideration could we be permitted to have the scenery we required and that I had been led to suppose would be placed at our service. I was shown some very old scenery and told we might have that, but I naturally refused it. A committee meeting of the Dramatic Society was hurriedly called, which decided that we could have the garden set at a charge of \$25. I should certainly have paid all expenses in connection with the scenery, but that a courteous offer should suddenly be turned into a business arrangement, and that only after my decision to cancel the date, was hardly what I had anticipated. I think a telegram or a telephone message telling me of this alteration of plans was not too much to expect.

I greatly regret causing any inconvenience to those playgoers who may arrive at the Opera House to-night, to find no performance, but I trust they will see just how the situation stands and forgive me for my share in the matter.

Yours faithfully,
WILLIAM SAUTER.

EDITORIAL NOTE.—In connection with the subject matter of the above letter, we have interviewed Mr. D. W. Crowley, Vice-President of the Kelowna Musical & Dramatic Society, and he has assured us that if any arrangement was made by Mr. Sauter for the use of the "Iolanthe" scenery, it was without the sanction of the officials of the Society, as it was not their intention to lend it to anyone; and it had been stripped off the battens and carefully put away for future service. A large assortment of other material was placed at Mr. Sauter's disposal, free of charge, including the scenery which a Summerland company found quite satisfactory in "The Brixton Burglary," some of Brandon Bros. canvas and the scenes used in the plays presented by the Legge Willis Co.

When it was ascertained that Mr. Sauter was dissatisfied the committee meeting was held, as stated by him, and it was decided to offer the use of the "Iolanthe" scenery for \$25, this sum being regarded as barely enough to cover the cost of mounting the canvas on the battens and taking it off again for storage, besides necessary repairs and wear and tear. The Society would have preferred not to lend the scenery at all, irrespective of the charge for it, but they made the offer to Mr. Sauter with the view of meeting his wishes as far as possible and at the same time protecting themselves against loss.

Mr. Crowley is of the opinion that the circumstances did not warrant Mr. Sauter in cancelling the performance, to the disappointment of many playgoers, especially as the members of the Society had busied themselves to secure a bumper house for the Summerland artists, and he points out that, while any amateur players from Summerland or elsewhere are welcome to use such scenery here as can be spared, it is not the practice of the Kelowna Musical and Dramatic Society to borrow scenery when they play away from home, but they take their equipment with them.

A new Canadian one-dollar bill has been turned out, bearing the portrait of Lord and Lady Grey. The old Aberdeen one dollar note will be retired.

A severe hailstorm in Red Deer, Alta., last Thursday, smashed the windows of every house in the town and forced citizens to run for shelter. The Coronation celebration was rudely interrupted.

Supplementary appropriations for preliminary work on the Georgian Bay Canal will probably be brought down when Parliament reassembles. A vote of three million supplementary was submitted to the cabinet council a few weeks ago, but did not appear in the estimates before Parliament adjourned.

FARMERS' INSTITUTE

Dr. Wansbrough Jones on Soils

(Contributed)

A very interesting and well-attended meeting of the Kelowna Farmers' Institute was held in the Okanagan Mission school house on Tuesday, June 20th. In the unavoidable absence of the president, Mr. Colin Smith took the chair, and after a few preliminary remarks introduced the first speaker, Dr. Wansbrough Jones, who took as his subject, "Soils and the Conservation of Moisture."

The speaker prefaced his lecture by saying that the subject was becoming more and more difficult, but he would try to give some general idea of the problems of the soil and the conclusions at which science had arrived, but which owing to its youth, some five and twenty years, are not very numerous, speaking of absolute conclusions. There are two easy divisions into which the subject could be divided—the water in the soil and the solid part of the soil.

Water is important to plants because nothing can enter the roots of a plant unless first dissolved in water. As instances of the necessity of water for plants, the lecturer cited strawberries, which required a ton and a quarter of water to be passed through the plants before 100 pounds of fruit could be produced; of clover, one ton of which required 13 acre inches; and of pasture, which in order to be in good condition required 28 acre inches in order to produce one ton of pasturage. Below the surface of the water-table all the spaces between the particles of soil are filled with water, therefore if the water table is too near the surface it is impossible to grow plants, because in this water there are harmful chemicals, and the bacteria which help the plants are killed. The remedy for this state of the land is drainage. Above the water table there are spaces, and there is a film of water surrounding each soil particle right up to the surface of the soil. The microscopic root hairs of the plant take the particles from the soil, and the water table is useful as a reservoir to replace the water thus taken up. Rainfall either runs off the soil or soaks in, or both, according to the condition in which the soil is at the time. The smaller the particles of soil and the closer they are together, the greater is the capillary attraction, and the reverse is equally true. A good mulch on the surface of the soil conserves the moisture in the soil by separating the soil particles at the surface, thus very much reducing the capillary attraction to the surface. Rainfall packs the mulch close together, and allows the water below to evaporate.

Some soils are better than others because some will hold more moisture than others, and some soils will move the water up from the water table better than others. A method of ascertaining the amount of moisture in soil is to weigh a portion of it, dry it in an oven, and then weigh again, the difference being the weight of water in the soil. A very instructive experiment is to fill lamp tubes with different kinds of soil and ascertain the weight of water in each by the method given above. Sand will contain 25 per cent. of its weight in water, sandy loam 40 per cent., clay 50 per cent., garden truck soil 80 per cent., and leaf mould 200 per cent.; but in actual practice it will be found that sand holds 15 per cent., sandy loam 25 per cent., and clay 40 per cent. If soil will not hold 30 per cent. of its weight in water, it must be improved. In addition the water-moving capacity of the soil must be taken into account, as in some soils water may be used up more quickly than it can move up from below. The ability of a soil to move water quickly may be tested by filling lamp tubes with dry soil and then placing them in a vessel of water and noticing the time that water takes to rise to the surface.

The water holding capacity of a soil can be increased in four different ways. (1) by drainage, when standing water is removed, thus leaving the film water which is requisite for the plant, as well as raising the temperature of the soil by as much as 10 degrees, and letting the air into the soil; (2) by cultivation, as deep as possible, in order to make the soil into a sponge to hold water; (3) by adding humus in the shape of cover crops or, better still, by adding barnyard manure; (4) by leaving belts of trees on the farm. In this connection the lecturer stated that the Americans were beginning to find out what a mistake they had made in cutting down so much timber, and were going in for re-afforestation.

The problem of what actually takes place in the soil has not yet been solved. Leibig's theory evolved about a century ago is far short of the

Come Boys!

This Sale is for You!

We'll sell 27 Boys' Suits, sizes 23 to 32, fitting boys from 4 to 12 years old,

These are two-piece suits, and they are made of all wool tweeds. Regular \$4.00, \$4.50, \$5.00 and \$5.50 suits, but we'll give the boys a chance.

Your choice while they last.
Only \$2.95

For 60c we'll give them a chance to take their choice of 133 Shirts, comprising cream, honey comb, fancy white duck, French cambric, Ceylon flannel, navy and khaki duck, oxfords, etc., etc., sizes 12 to 14.

We'll give them a chance to buy a good belt for 25c

And a chance to buy a pair of Canvas Boots, regular \$1.50 to \$1.60, for \$1.25

And a pair of Patent Leather Boots regular \$3.75 for \$2.95

And you can take your pick of any of our Straw or Linen Hats for HALF PRICE

And we'll sell the balance of our boys' Balbriggan Undervests, all sizes, 35c each, 3 for \$1.00

The prices quoted on the above goods are for cash only.

mark. This German scientist neglected a fundamental truth, for he said that it is possible to ascertain what amount of nitrogen, phosphorus and potash a given crop takes out of the soil and that if the farmer replaces that amount by adding the proper amount of chemical fertilizers, he is doing nothing to impoverish the soil, and that it is possible to grow the same crop on the same ground every year. For example, in the first nine inches of the average agricultural soil there are computed to be 6,000 pounds of nitrogen, 10,000 pounds of phosphorus and 21,000 pounds of potash per acre. An average crop of wheat, say 28 bushels to the acre, will consume 66 pounds of nitrogen, 20 pounds of phosphorus and 84 pounds of potash. It would thus appear that there is enough plant food to grow wheat on the same land for one hundred years, and to obtain an average crop. This is not so, as has been proved at the Rothamsted Experimental Station in England, where wheat has been grown on the same land for 70 years, for the yield per acre has fallen from 36 bushels to 12 or 13, at which figure it remains fairly constant. It appears therefore that Liebig's theory is false because he did not realize that the plant food in the soil is not in such a state that plants can utilize it. The plant food in the soil came originally from rocks and has to be acted on by carbonic acid in solution before it is available for plant food. Only a portion of the plant food in the soil is soluble, a portion nearly soluble, and a portion insoluble for the time being, therefore continuous growing of the same crop uses up the soluble elements in the soil and draw on the nearly soluble at a quicker rate than it can become soluble.

Mr. Reid followed, and gave an extremely valuable lecture on Poultry Farming. He considered that every farmer should have from 20 to 100 head of chicken, and in an orchard section such as this chickens would bring in money every week and help out the weary period of waiting before the trees began to bear. The market is good and whereas in 1905 Canada exported over 1,000,000 doz. eggs, in 1910 she imported 800,000 doz., and this state of things applies more to British Columbia than to any other province in the Dominion. When the market is low he recommended that the eggs should be preserved, but when part of the market should be clearly marked as such.

The secret of success in poultry farming is good birds, good houses and good food. As regards the stock, it is not so much the breed as the strain that must be considered. As a general rule, Leghorns, or Minorcas will produce most throughout the year, but some strains of Plymouth Rocks, Rhode Island Reds, Wyandottes and Orpingtons will do as well. For the small man, a system of trap nests with a view to the selection

Repairing the Streets.

Municipal Councils come and go, and new candidates make loud professions of what they will do to the streets when they get into office, but a month or two in the Council seems to sap their determination and they fall into the old, shiftless methods of street work which result in roads unpleasant to travel for half the year and bad for the rest of the time. The customary procedure is to allow a street to get about as bad as it can possibly become, then to suddenly dump a huge quantity of large lumps of rock on it, making a surface which teams and pedestrians carefully avoid as long as they are able, and leave it to the mellowing effect of time and such traffic as is compelled to use it to make a decent road out of it in the course of a year or two. The stitch-in-time policy seems to be an unknown quantity in Kelowna, and a street must be in the last stages of disrepair before anything is done on it.

Another fatuous feature of the street-making policy, or lack of policy, pursued here is to spend large amounts of money on streets on which there is practically no traffic, while those on which heavy loads are constantly being hauled receive no attention until seriously damaged. For instance, the portion of Lawrence Ave. between Pendozi St. and Ellis St. was in grass until this spring and thus free of dust in the summer time. The road-bed was quite good enough for the small amount of traffic that passed over it, but a wise Board of Works saw fit to tear up the turf and grade the street, to add its quota to the summer dust. On the other hand, the portion of Richter St. between the fair ground and the first turn to the brick yard has been badly cut up for weeks past by daily hauling of numerous loads of rock for the streets and of brick, yet not a thing has been done to improve it. The ruts in places are nearly axle deep, first on one side of the road and then on the other, as the writer knows to his cost, having smashed all three leaves of a spring of his car while passing over the street at tortoise speed last week.

It is a feast or a famine in street work in Kelowna. A wiser policy would be a combination of permanent work and patching. The latter should never cease as long as there is any to do, and any amount of it can be found. Bernard Ave. abounds in small chuck-holes that a wheel-barrow-full or two of fine gravel would fill up and perchance save the neck of some unfortunate cyclist one of these dark nights. But no, tons of gravel, or rather rock, where it could be done without for a time and not a spoonful where it is badly needed. It is a year since Bernard Ave. was "gravelled"—save the mark!—and still its ankle-breaking surface remains the same, waiting until such time as kind Providence shall provide a top coat of finer material or traffic grind it down with much expenditure of shoe leather and horse hoof. Abbott St. has been the next victim, and it forms an interesting speculation to guess whether it will have to wait as long as Bernard Ave. to receive the remainder of its clothes.

The Farmers' Institute meeting held at the schoolhouse on June 20 was a great success, and the lectures given by Dr. Jones and Mr. Reed were of great value and those who did not turn out can really feel that they missed lectures well worth listening to. They also certainly missed the mosquitoes, and it would seem that the school trustees are of a very cheese-paring disposition, as it would not cost very much to render the schoolhouse mosquito-proof. As it was, the mosquitoes were very trying to the audience and the speakers, more so the latter, as while they were speaking they were unable to mitigate the attacks of the energetic little insect by smoking. It is a pity that none of the school trustees were present, or perhaps they might have decided that mosquito netting was an imperative necessity and not an extravagant luxury for the schoolmaster and his pupils, who have to endure such an unmitigated nuisance during the mosquito season.

OKANAGAN MISSION NOTES

(From Our Own Correspondent)

A team from here went down to the Polo Ground on Coronation Day to play a cricket team got up by Mr. A. H. Crichton, and the game resulted in a victory for the visitors by 85 runs on the first innings. It is a pity the rain on the previous night led two or three of Mr. Crichton's team to think that there would be no play, otherwise the match might have been closer.

The Men's Open Doubles Tournament, postponed on account of rain from the 11th, was played in splendid weather on the 25th and resulted, as was fully expected, in a victory for Messrs. Mallam and Stubbs, who only lost seven games out of 72. The Tournament was held on the American system and with an entry of 10 couples; each couple had to play nine couples eight games, four each side of the net. The scores are appended: Messrs. H. C. Mallam and R. Stubbs 65, Bartholomew and Barney 48, Fordham and Harvey 44, Mitchell and Gore Brown 40, Chaier and Thompson 35, Taylor and Bennett 29, J. S. Thomson and Packer 23, while Dal-gish and W. Thomson and Bell and Beatty brought up the rear with 22 each.

The return lawn tennis match against the K. L. O. Bench will take place on Thursday, July 6th, and not on Tuesday, as stated in last week's issue of this paper.

The following statement of receipts and expenditure will be presented to the Okanagan Mission Sports Club at the half-yearly general meeting at Bellevue Hotel on July 5th.

ROYAL CORONATION

Loyally Observed

The 24th of May having been observed in Kelowna by a whole day's sports, there was no local celebration of Coronation Day, but about 120 people took advantage of the excursion to Vernon by the "Okanagan" and spent an enjoyable day at that town, where an excellent programme was carried out. The rosters for the lacrosse boys had to make the best of a bitter disappointment, as the Vernon team exacted vengeance to the tune of 6-2 for their defeat here. The boat returned with the excursionists at 10.15 p.m.

NARAMATA

Only a small number in addition to the war canoe crew went to Naramata, as no transportation facilities were available, outside of launches. The canoe boys more than evened up for Kelowna's lacrosse defeat at Vernon by winning both their races: Naramata lacked sufficient men to enter the 15-paddle race for the Rob-inson Cup and medals, and the contest was therefore between Kelowna and Peachland, who won the race last year. A good race resulted in victory for Kelowna by two lengths, time for the mile being 7 mins., 9 secs. In the 9-paddle race, Naramata entered a crew and the finish was a close one, with Kelowna first and Peachland second; time for the half-mile, 4 mins., 10 secs. In the mixed war canoe race, with crews composed of four ladies and five men, Peachland beat Naramata on the finish line by about four feet, after a most exciting struggle.

The baseball match resulted in the defeat of Summerland by Penticton by 13-6.

While the excursion to Vernon attracted many people who would otherwise have been present, there was a good attendance from Summerland and Penticton, and there should be a large number present at the next regatta, if excursion arrangements can be made.

EAST KELOWNA

(Contributed.)

By the direction of the Board of Education, the Coronation of His Majesty the King was observed at the East Kelowna school on Wednesday. The residents on the Bench were invited to be present, and as this was the first opportunity for most of them to inspect the new school, a large number availed themselves of the opportunity, and doubtless all would have done so if they could have spared the time from their orchards.

The proceedings may be said to have commenced in the morning when Messrs. Pyman, Wright, Anderson and Gillespie constructed and erected a flag-pole in front of the school. The official proceedings commenced sharp at 3 p.m. when Mr. J. E. Reekie hoisted the Union Jack to the top of the pole and Mr. George Allan called for three cheers for the King, which were lustily given. After several groups of the children had been photographed an adjournment was made to the schoolroom where an excellent programme was gone through, including recitations by Miss Ellen Jones-Evans, Miss Annie Reekie, and Master Gordon Jones-Evans; pretty marching exercises by the children, and an address by the chairman, Mr. Reekie, on the meaning of the Coronation ceremony. Tea and light refreshments were served.

On behalf of the visitors, Messrs. A. Newbold, Anderson and T. L. Gillespie expressed their pleasure at what they had seen during the afternoon and warmly congratulated the trustees, Messrs. Reekie, Allan and Paynter, and the energetic schoolmistress, Miss Younghusband, on what they had accomplished in such a short time.

The singing of "God Save the King" and "The Maple Leaf for Ever" brought the proceedings to a close.

MISSION CREEK.

(Contributed.)

In accordance with notice from the Department of Education, Victoria, Coronation exercises were observed in Mission Creek school on Wednesday, June 21st. The three trustees of the school were present and the friends of the pupils numbered about twenty visitors.

The programme was opened by the singing of "The Maple Leaf for Ever" by the children and their friends, under the leadership of the Misses Renwick. Mr. Moore, teacher, explained some of the parts of the Coronation ceremony in Westminster Abbey, with a few historic references to the Coronation Chair and the holy Stone of Scone. Mr. D. McEachern, trustee, gave an address to the pupils, and he was followed by Mr. Robert Aikman by a speech on "The King and Cabinet Ministers."

The ceremony closed with the singing of "The Red, White and Blue" and "God Save the King."

The upper Similkameen Valley near Princeton suffered a bad summer frost on June 18th, eight degrees below freezing point being recorded. The Okanagan Valley entirely escaped the visitation, which seems to have descended upon places where summer frost is practically unheard of, such as in the neighbourhood of Tacoma, where frost killed tomatoes, beans and even potatoes last week.

Invest in well selected POINT GREY PROPERTY

Vancouver will be the terminus for six railroads: Great Northern, Burlington, Northern Pacific, Canadian Northern, Grand Trunk Pacific, and Canadian Pacific.

POINT GREY is the fashionable residential district of Vancouver. The municipality is now spending \$1,500,000 on roads, sidewalks and water mains, as well as \$40,000 on schools. Homes now in course of construction in this municipality will cost \$438,900.

The property we are offering is in Block 62, D. L. 2027. It is high land (282 ft. above sea level) commanding an unsurpassed view of the mountains, gulf and bay. It faces the new car line to be built by the B. C. Electric Railway Co.

Price of Lots, \$750

1/4 Cash, balance 6, 12, 18 and 24 months.

Prices have been put at a low figure in order to dispose of all the property quickly. We fully expect it will be sold within that time. For that reason you are advised to act quickly.

BY-LAW No. 92

A BY-LAW FOR RAISING THE SUM OF \$3,000.00 for the purpose of purchasing road-making machinery for the City of Kelowna.

WHEREAS it has been found necessary to raise sufficient money for the purpose of purchasing road-making machinery for the said City of Kelowna;

AND WHEREAS, it is necessary for the said purpose to raise by way of loan upon the credit of the said City the sum of Three Thousand Dollars payable on the First Day of August, A. D. 1911, bearing interest in the meantime, payable half-yearly, at the rate of five (5) per cent. per annum, the principal of such loan when raised to be applied for the purpose aforesaid;

AND WHEREAS, for the payment of the said principal and interest it is necessary to raise the sum of \$250.74 in each and every year;

AND WHEREAS, the whole rateable land or improvements or real property of the City of Kelowna, according to the last revised assessment roll is \$1,409,500.00;

AND WHEREAS, the amount of the existing debenture debt of the said City is \$163,500.00;

NOW THEREFORE, the Mayor and Council of the City of Kelowna, in open meeting assembled, enact as follows:—

1.—It shall be lawful for the Mayor and the Council of the City of Kelowna to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same upon the credit of the said City, by way of the debentures hereinafter mentioned, a sum of money not exceeding in the whole the sum of Three Thousand Dollars, and to cause all such sums so raised and received to be paid into the hands of the Treasurer of the said City for the purpose, and with the objects hereinafter recited.

2.—It shall be lawful for the said Mayor to cause any number of the said debentures to be made for the sum of One Thousand Dollars, bearing interest at the rate of five (5) per cent. per annum, not exceeding in the whole the sum of Three Thousand Dollars, and all such debentures shall be sealed with the seal of the City of Kelowna, signed by the Mayor and countersigned by the Treasurer of the said City;

3.—The said debentures shall bear date the First day of August, A.D. 1911, and shall be made payable in twenty years from the date hereinafter named for this By-Law to take effect, at the Bank of Montreal, in the City of Kelowna.

4.—The said debentures shall have coupons attached for the payment of interest at the rate of five per cent. per annum on the amount of the said debentures, and such interest shall be payable half-yearly on the First Day of February and August in each and every year, and the signatures to such coupons may be either written, stamped, printed or lithographed.

5.—A rate on the dollar shall be levied and shall be raised annually, in addition to all other rates, on the rateable land or improvements or real property of the said city sufficient to pay interest on the debt hereby created during the currency of the said debentures and to provide for the payment of such debt when due.

6.—The sum of \$150.00 shall be raised and levied annually by a rate on all the rateable land or improvements or real property in the City of Kelowna, in addition to all other rates, for the purpose of paying the interest on the said debentures.

7.—The sum of \$100.74 shall be raised and levied annually by a rate on all the rateable land or improvements or real property in the City of Kelowna, in addition to all other rates, for the payment of the debt hereby created when due.

8.—It shall be lawful for the City of Kelowna from time to time to repurchase any of the said debentures at such price or prices as may be mutually agreed upon, and all such debentures so repurchased shall forthwith be cancelled and no re-issue of any such debenture or debentures shall be made in consequence of such repurchase.

9.—This By-Law shall before the final passage thereof receive the assent of the electors of the City of Kelowna in the manner provided for in the "Municipal Clauses Act, 1906," and amending Acts.

10.—This By-Law shall come into force and take effect on the First Day of August, 1911.

11.—This By-Law may be cited for all purposes as the City of Kelowna Road Making Machinery Purchase By-Law, 1911.

Read a first time by the Municipal Council this 15th day of June, 1911.

Read a second time by the Municipal Council this 15th day of June, 1911.

RIFLE ASSOCIATION

Weekly Practice

Shooting conditions were better on Thursday than at the weekly practices for a month past, as the customary gusty wind at 600 for once failed to blow with its usual varying strength and the light was good. The riflemen took advantage of their opportunities, and although there was a small turnout, five men got 80 and over. Mr. T. Allan, who has been steadily improving his marksmanship, piled up the splendid total of 97, including 34 at 600. Mr. C. A. Blomfield, who has developed into the steadiest shot in the Association, obtained a nice 93.

After July 1st all Vancouver hotel dining rooms must close and remain closed from midnight until 6 a.m. and no exhibitions, performances or vocal music will be permitted in cafes or restaurants at any time.

It is estimated that the "Made-in-Canada" fair just concluded in Vancouver, will realize a profit of over \$10,000, which sum will be used for the establishment of a convalescent home for the city.

Plans for the G. T. P. dry dock at Prince Rupert will shortly be approved by the public works department on the basis of a 3 1/2 per cent subsidy. The dock will cost three million dollars.

Tracklayers on the Alberni extension of the E. & N. Railway have reached the summit, working from Cameron Lake. It is expected that the tracklayers will reach Port Alberni by the 15th of August.

Carl Petersen, of Vancouver, defeated Otto Wicklow, champion middleweight wrestler of Alberta last Friday, at Stettler, Alta. Wicklow was injured in the first bout and could not continue.

Word has been received from London that E. J. Fader of Vancouver has consummated a deal whereby he agrees to furnish an English company with one million tons of magnetic iron ore for the large steel works that the large English concern is to erect in the vicinity of Coquitlam. The company will be known as the Canadian Pacific Steel Company, and the ore supply will be drawn from the iron mine near Harrison lake, owned by Mr. Fader and his associates, which is said to be capable of furnishing all the iron ore that this province will require during the next twenty years.

A despatch from Penticton states that representatives of the fruit-packing firms operating in the Okanagan have completed an estimate of the fruit crop in the valley for the coming season. Generally speaking, there will be a big shortage of peaches in the Okanagan. In Penticton alone, of all valley points, there will be an increase this year in the peach crop. In Summerland last year about twenty cars of peaches were handled. This season there will be, it is estimated, little more than one carload shipped. The exceptionally cold weather of last winter has also worked disastrously at Peachland. The fruit crop computers estimate, however, that the apple output will show a big increase this year over last.

Mayor..... Clerk.....

TAKE NOTICE that the above is a true copy of the proposed by-law upon which the vote of the Municipality will be taken at the Council Chamber, in Kelowna, on Friday, the Seventh Day of July, 1911, between the hours of 9 a.m. and 7 p.m.

G. H. DUNN,
City Clerk.

STEALING A HORSE.

A Bold Afghan Robber Who Had a
Sense of Humor.

An East Indian officer, writing of
life in Peshawar in the early seven-
ties of the last century, relates the
following:

The medical officer of my regiment
was informed one night that a valua-
ble and favorite Arab steed of his had
been stolen. Over the border, "gone
forever, he never expected to see his
horse again, but next day, much to his
surprise, there came to him a bearded
ruffian riding bare backed the stolen
steed.

He confessed that he had taken the
animal, but, learning that it was the
property of a hakim (physician), had
brought it back. The horse had been
tethered in line with others, with
men, women and children sleeping in
the open about them.

"How did you manage it?" asked
the doctor.

"If the sahib will give the necessary
order," he said, "I will show him."

The entire scene was reproduced,
even to the night watchman asleep in
a corner. Noiselessly the Afghan
crawled toward the Arab, treading
snakelike (through the prostrate forms
to where it was standing at the end of
the row. Softly hissing to attract the
animal's attention without causing
alarm, he gently raised himself with
arm extended.

In his open palm were some lumps
of goor (native sugar), beloved of
horses, and while the Arab was enjoy-
ing these the man was caressing him
with the other hand, whence suspended
a watering bottle taken from his
wallet. Quickly this was adjusted,
and then, stroking soothingly, the rob-
ber passed his hand over the animal's
back and down the hind quarters. Swiftly
the heel ropes were unhitched, then
the head gear released, and with a
bound he was astride and away, his
right hand backward flung, shouting
triumphantly as he passed, "Thus was
it done!"

The joke was that he never came
back! A double restitution would have
been too much of a wrench.

A MAN'S WHISKERS.

They Should Not Be Renovated With
the Shoebrush.

If men would devote as much loving
care to their whiskers as women do to
their hair they would contribute great-
ly to increasing the dignity of the sex.

A woman wouldn't think of coming
down town without having her hair
properly arranged. She combs it, and
fusses with it, and pads it out with
rats, and puts wire cages under it, and
runs ribbons through it, and she is a
vision of loveliness when she appears
in the busy haunts of men.

But a man gives his whiskers no at-
tention further than to brush the egg-
shells or clam chowder out of them
with the shoebrush. It never seems to
occur to him that his whiskers might
be made beautiful if he would devote
one-half the time to them that a wom-
an gives to her hair. He might easily
have made a wire cage to attach to
his chin, and then he could weave his
whiskers around it in captivating
styles and tie the ends together with
a pink or blue ribbon.

The alfalfa editor gets tired of see-
ing the same old fashions in whiskers
when it would be so easy to devise
new and striking ways of wearing
them.

There should be a whiskers club in
Emporia. If such an organization
were formed and the members held
weekly meetings to exchange ideas
and compare notes the results would
soon be apparent. The town's whis-
kers would soon become distinctive,
and their reputation would cover the
country.

Let us have a new deal in spinach.—
Emporia Gazette.

A Deadly Weapon.

There is a horrible weapon favored
by certain of the hill tribes in the
Ghats of western Asia, which con-
sists of four sharp, curved blades hid-
den under the fingers and securely held
in place by rings passing over two of
them. With such a contrivance Shi-
vaj, the Maratha hero, is credited
with having disemboweled his Mo-
hammedan overlord when making a
pretense of rendering him his humble
submission. The vagnaks ("tiger's
claws"), as they are called, are dis-
tinctly more brutal than their western
prototype, the "knuckle duster."—
Wide World Magazine.

When Wagner Fleed.

Richard Wagner, the composer, was
an ardent republican in 1843. In the
archives of Dresden there is a docu-
ment setting forth a case of high trea-
son against the musician. He was
accused of having written to a friend
a letter proposing to turn Saxony into
a republic. "But whom shall we make
president?" he asked. "I see nobody
competent for the office except our
present sovereign, Frederick Augustus
II." Frederick Augustus does not
seem to have appreciated the humor
of the suggestion that he should doff
the crown and content himself with
the dignity of a republican president.
For this flash of unconscious fun
Wagner had to bolt to Switzerland.

FARMERS' INSTITUTE

Continued from Page 1

of good hens, is impossible, but the
only way to get a good strain is to
select the best hens to breed from,
and that must be done from observa-
tion. The hen that is always work-
ing is the hen that lays the "most
eggs." As regards young stock, the
pullets that start well, do well. Not
more than half-a-dozen hens should
be mated with one male bird, and it
is essential that the male bird should
be a good, strong, vigorous one. One
method of finding out whether a hen
is turning its food into eggs or mere-
ly fat is to examine her, and if the
pelvis bones are three inches apart
she is a good layer; otherwise, her
food is being used to make fat.

On the question of feed, it is varie-
ty that produces the best results.
The speaker is at present feeding
wheat in the morning, and wheat and
corn alternately at night. The latter
should be slightly warmed in water.
As winter feeds, sprouted oats are
good, and thousand headed kale is
excellent, but the speaker was un-
aware whether it could be grown in
this district. Dry mash is not as good
as wet mash, but the latter must not
be sloppy. It is best to use skim
milk in dampening the mash, as skim
milk is as good as beef scraps. Feed
in the winter should be given in
straw four or five inches deep, so
that the birds have to work for their
food. Good fresh water is essential
and so is a supply of oyster shells in
winter.

Regarding young birds, a newly-
hatched chick has enough food in it
to last it for 36 to 48 hours. Mash
for chicks must be fed dry, and bone
meal is good for them. Warm milk
is good for them to drink, with wa-
ter an hour later. On the question
of houses the speaker advocated the
use of Woods' house, and birds should
be shut up in it and not allowed out
when snow is on the ground.

Mr. Hobson proposed a vote of
thanks to the speakers for their most
valuable and interesting addresses,
which was seconded by Mr. Gray, and
carried by acclamation.

Mr. Smith then announced that it
was hoped that the government
would send down an irrigation expert,
and after some discussion it was ar-
ranged that the demonstration should
take place in Mr. Mallam's or-
chard.

At the closing exercises of the
Kingston Royal Military College, L.
A. Wilcott, of Vancouver, won the
gold medal given by the Governor-
General.

WATER NOTICE.

Notice is hereby given that an ap-
plication will be made under Part V.
of the "Water Act, 1909," to obtain
a licence in the Osoyoos Division of
Yale District.

a.—The name, address and occupa-
tion of the applicant—John J. Carney,
of Kelowna, B.C., Farmer.

b.—The name of the lake, stream
or source (if unnamed, the description
is—Mill Creek.

c.—The point of diversion—About
1950 feet south of the N. E. corner
post of the S. W. ¼ of Section 11,
Township 23.

d.—The quantity of water applied
for (in cubic feet per second)—Three.

e.—The character of the proposed
works—pump, pipe and flume.

f.—The premises on which the wa-
ter is to be used (describe same)—N.
W. ¼ of Section 2, and S. W. ¼ of
Section 11, Township 23.

g.—The purposes for which the wa-
ter is to be used—Irrigation.

h.—If for irrigation describe the
land intended to be irrigated, giving
acreage—A strip of about 75 acres
stretching from north to south on
the east side of above land.

j.—Area of Crown land intended to
be occupied by the proposed works—
None.

k.—This notice was posted on the
23rd day of June, 1911, and appli-
cation will be made to the Commis-
sioner on the 1st day of August, 1911.

l.—Give the names and addresses of
any riparian proprietors or licensees
who or whose lands are likely to be
affected by the proposed works, ei-
ther above or below the outlet. —
None.

The Pedigree of the Stallion D'Artag-
nan, described as follows: Colour, Bay;
star, snip, left front and both hind feet
white; foaled April 20th, 1903; bred by
M. Alphonse Hays, Department of La-
Manche;

1st Dam by Quenouille, by Harley;
2nd Dam by Cascade, by Lavater, 3rd
Dam, —, by Heir of Linne;
has been examined by the Department,
and I hereby certify that the stallion is
of pure breeding and is registered in a
stud book recognised by the Depart-
ment. J. R. ANDERSON,
Deputy Minister of Agriculture
Victoria, B.C., March 27, 1908

The French Coach Horse cannot be ex-
celled for combination of speed, power,
elegance and endurance; of a mild dispo-
sition; and the most prepotent and im-
pressive of all breeds, the pedigree exten-
ding back over 200 years.
Carries insurance of \$1,000 with nearly a
year to run.

Tenders will be received until July
15th, at noon. The highest or any ten-
der not necessarily accepted. Terms
will be given if satisfactory.

D'ARTAGNAN colts are giving en-
tire satisfaction. Intending purchas-
ers can satisfy themselves on this mat-
ter by inspecting his stock at the pre-
mises of W. R. Barlee, D. W. Crowley,
John Conroy, J. H. Baillie and several
others.

Tenders to be addressed to

E. W. WILKINSON, Secretary

MONEY TO LOAN in sums of \$1,000
to \$20,000 at 8 per cent.—Rem-
bler Paul. 50-1f

DOUBLE YOUR MONEY.—Buy a lot
in Coronation Square, it is sure
to double in value in less than a year.
In fact we are selling lots for less
than half what is now being asked
for adjacent property. How can we
do it? Simply this—we bought this
excellent piece of land, 8½ acres,
block 40, at a reasonable figure, and
are now going to give our patrons
the benefit. We do not want to get
rich all at once, and we want every
man in Kelowna, no matter how small
his means, to own a homesite. We
are going to sell a limited number
of these lots at one hundred dollars
each, one quarter cash, and three, six
and nine months for the balance.
There is now absolutely no occasion
for the people to complain about high
prices. It is about the same distance
from the business section as the pub-
lic school.—CLEMENT BROS. 48-4

WANTED.—Paid correspondents and
subscription agents for the "Cour-
ier" at Rutland, Benoulin, K. L. O.
Bench and generally throughout the
district tributary to Kelowna. Liberal
terms. Apply by letter only to Editor,
Kelowna Courier.

Local and Personal News

Mr. H. W. Raymer left on Thursday on a visit to Victoria.

Dr. and Mrs. Keller and Master Rodney returned on Friday from a brief visit to England.

Mr. G. H. Dunn, City Clerk, returned on Friday from a trip to Kamloops on municipal business.

Mr. F. E. R. Wollaston made a flying trip to the Coast on Thursday, returning on Monday.

The regular weekly meeting of the City Council did not materialise on Saturday night, for lack of a quorum.

Mrs. W. S. Fuller returned on Monday from the Coast, where she had been in attendance at the Provincial Convention of the W. C. T. U.

Mr. Neil Gregory has been gazetted as a Commissioner for Taking Affidavits in the Supreme Court, under the "Provincial Elections Act," for Okanagan Electoral District.

Mr. O'Neil, an official of the Dominion Immigration Department, arrested about a dozen Italians on Sunday at one of the irrigation works construction camps, for deportation. They had sneaked their way into Canada in defiance of the "Immigration Act," and were traced here.

The closing exercises of the Public School, on adjournment for the summer vacation, will take place on Friday morning, June 30th. Miss Currie and Miss Hyatt will receive parents and friends from 10 to 11 a.m., and Miss Cockrell and Miss Fullerton, from 11 a.m. until noon.

For reasons given elsewhere in this paper, the manager of the Summerland amateur organization which was to play here last Saturday in Oscar Wilde's comedy, "The Importance of Being Earnest," summarily cancelled the engagement, to the regret and disappointment of many playgoers, who looked forward to the performance with keen anticipation.

The editor of this paper has received a letter from Mr. F. R. E. DeHart, dated on board the "Baltic," in which he gives a brief description of the trip of the Kelowna Coronation party up to that time. In closing, he said the steamer was just arriving at Queenstown, and that the trip had been a fine one, not one of the party suffering from "mal de mer."

At the annual examination of the Mission Creek School for the session 1910-11, the following pupils received the provincial Rolls of Honour—Mildred Renwick, for Proficiency; Delbert Speer, for Deportment; Ruby Lytle, for Punctuality and Regularity. Some pupils recited gems from poetic literature, and were awarded prizes which were souvenirs of Coronation year.—Con.

His many Kelowna friends were glad to see Mr. Scott, the stage-driver, on his first appearance in town after the serious accident he passed through several weeks ago. He came down from Vernon on Monday on his motor stage, which is being driven for him, as his right shoulder is still stiff and unserviceable, but otherwise he looks very well, considering his harrowing experience.

Mrs. T. G. Speer and her little daughter, Alfaretta, returned from the Coast a few days ago, after spending six weeks with her son, Mr. Harvey H. Naismith, at Agassiz. Mr. Naismith, who accompanied his mother, spent a brief visit here and has now returned to his farm at Agassiz, taking with him his sister, Miss Clara Naismith, who will be much missed by her many friends throughout the district.

Mr. D. H. Rattenbury has sold the property of Mr. A. S. Cox, situated on Ethel St. and consisting of a residence and five acres of land, to Mr. H. J. Williams, late superintendent of the asbestos mines at Danville, Que.—the largest in the world, producing about one-third of the entire output—and his father-in-law, Mr. Stockwell. He has also sold to the same gentleman Mr. T. C. D. Tippet's 10-acre block on the K. L. O. Bench, five acres of which is bearing and five acres in yearling trees. They have returned east to wind up their affairs, and will come back about Sept. 1st to take up permanent residence here.

A good indication of the prosperity and progress of the Kelowna district is afforded by the fact that in last week's issue of the "B. C. Gazette" there appeared the certificates of incorporation of no less than five local limited liability companies, namely, Canyon Creek Irrigation Co., capital \$100,000; Kelowna Farmers' Exchange, capital \$100,000; Lequime Brothers & Co., capital \$100,000; Stirling & Pitcairn, capital \$100,000; Westbank Irrigation Co., capital \$25,000. Another recent formation is the South Kelowna Orchard Co., capital \$150,000, organized for the purchase of 250 acres of choice fruit land from the South Kelowna Land Co., to be planted with staple varieties of apples, pears and plums, and carried on as a commercial undertaking.

Miss Fraser left for the Coast this morning.

Dr. Richards is now convalescent and able to move about, if somewhat stiffly.

The High School Examinations will be held next week, from Monday to Saturday, in the Public School building.

Mr. and Mrs. Wallace Budden, of Seattle, Wash., arrived yesterday on an extended visit to the former's parents, Mr. and Mrs. G. F. Budden.

Among the successful students of the Provincial Normal School, Vancouver, who have received second grade diplomas at the recent examinations appear the names of Misses Mary Bigger, Pearl W. Raymer and Winifred J. O. Raymer, of Kelowna.

At the High School entrance examinations being held this week under the presidency of Miss McNaughton, B.A., the number of candidates forward is as follows—Kelowna 14, Black Mountain 2, East Kelowna 1, Ellison 2, Mission Creek 1, Woods Lake 2—total, 22.

A small cinnamon bear cub was the centre of attraction on the wharf on Monday, when the "Okanagan" came in. He had been captured by Mr. A. Dobbin, and only after a week or two's captivity seemed quite tame, submitting to be led about on a chain and smelling noses in a most amiable way with an inquisitive dog.

The Baptist Y. P. Society are holding their closing of the session social on Monday next, July 3rd, at the home of Mrs. Reekie, corner of Eli Ave. and Water St., commencing at 7.30 p.m. Musical items will be rendered and refreshments will be served on the lawn. Don't miss to come and spend a real good social time with us. We cordially invite all. Con.

The Cartwright Concert Co., a musical organization highly praised by competent critics, will appear in the Opera House on Wednesday next, July 5th, under the auspices of the City Band, who will enjoy a share of the profits, to be applied towards the purchase of new instruments and uniforms. The boys are making such creditable progress under their new leader that they deserve the most hearty encouragement, and everyone should buy a ticket to the concert, both for an enjoyable evening's entertainment and to render material assistance to a worthy object.

The Department of Agriculture has arranged for a supplementary series of Farmers' Institute meetings to be held at various points in the Kelowna district, on July 12th, 13th and 14th, at which Prof. R. W. Allen, of the experimental irrigation station at Umatilla, Ore., will lecture and give practical demonstrations of the relative advantages of deep and shallow furrows, percolation of water through the soil and the economical application of water. Mr. B. Hoy, assistant horticulturist, Vernon, will lecture on the use of cover crops, summer pruning and handling fruit.

The heavy rainfall on Monday delayed commencement of play in the first Tennis Tournament of the Okanagan Lawn Tennis Association, scheduled to commence on Tuesday, but yesterday and today the tournament has been in full swing, with a large number of players in attendance. At time of going to press, we have been unable to obtain the scores, but we understand that Summerland stands a good chance of winning the majority of the events. The full scores will be published next week, if obtainable. On Tuesday evening, a very enjoyable dance was held in the Aquatic Pavilion, at which, despite their exertions of the day, the players footed it merrily until 2 a.m.

Mr. B. McDonald, manager of the Farmers' Exchange, returned yesterday from an extended trip in his McLaughlin runabout, in which he was accompanied by Mr. P. DuMoulin, manager of the Bank of Montreal, for the purpose of inspecting the crops throughout the Okanagan. He states that nowhere are crop prospects better than in the Kelowna district. Yesterday, the little car covered a lot of ground. Leaving Salmon Arm in the morning, Grand Prairie was visited, and from Vernon a side trip was made to Lumby. Kelowna was reached at 10 p.m., the distance traversed during the day being about 205 miles, during which no trouble of any kind was experienced with the car.

BUSINESS LOCALS

Dr. Mathison, dentist. Telephone 89.
The "Aberdeen" will run as an excursion boat to Pentiction for the celebration there on July 1st. The Kelowna Band has been engaged for the day.

The "Daily Mail" trophy, shot for on Empire Day by the rifle clubs of the Empire, was won by the Wellington Suburbs team, New Zealand, with the extraordinary score of 824 points out of a possible 840, or 103 points per man.

NEWS OF THE PROVINCE

The new hospital at Ladysmith was formally opened on Friday.

The price of building lots in Hope continues to soar, as high as \$2,000 now being asked.

The Bank of Vancouver has opened a branch at Hazelton and the Canadian Bank of Commerce a branch at Duncan.

The Coquitlam Municipal Council has decided to employ no more Oriental labour in its road work.

Numerous German families in Alberta are taking up locations on the west fork of the Kettle river.

Steel will be laid on the G. T. P. between Yellowhead Pass and Tete Jaune Cache before the end of the year.

It is estimated that there are upwards of four hundred men prospecting for gold, silver, copper and coal along the proposed line of the G. T. P. in British Columbia.

A big deal involving timber limits on the Arrow and Shuswap Lakes is pending, which will mean that 425,000,000 feet of standing timber will change hands. The limits comprise 37 square miles on Shuswap lake and four square miles on Snow creek, a tributary of Cariboo creek, which flows into Arrow lake near Burton City.

Plans for the new sewer system of the city of Cranbrook have been approved by the Provincial government, the contract for construction has been awarded to the Galt Engineering Works, and actual construction will commence in less than a fortnight. The system will cost in the neighbourhood of \$100,000, and will take two seasons to complete. The by-law had to be twice submitted, failing in the winter on account of special opposition, but being triumphantly carried recently.

Andrew Halkett, naturalist of the Marine and Fisheries department at Ottawa, has been engaged for the past two months collecting data on the Queen Charlotte Islands and Banks Island, where he has procured a large number of interesting marine specimens. He reports that the fish on the Pacific coast differ materially in species from those on the Atlantic side, with a few exceptions, notably halibut, which has the same characteristics in both oceans.

The peach crop at Keremeos will be very light this season, but all other fruits are abundant throughout the district.

The first strawberries of the season on the Kootenay and Arrow lakes were picked on June 24. Two jam factories are now in operation in Nelson.

The championship of B. C. was won by the Nanaimo football team last Friday when the Coal City kickers defeated Ladysmith by 4 to 2.

Upwards of two hundred and fifty prospectors are reported scattered through the Hope mountains as far south as the international boundary.

Negotiations are pending for the resumption of mining operations in the Crows' Nest Pass coal fields under a temporary agreement. The mines have now been idle since the 1st of April.

There are reported to be over one hundred squatters between Tete Jaune Cache and Grand Canyon, although that portion of the valley is under absolute reserve and the rights of the squatters are problematical.

The launch Ganges, which, since the sinking of the steamer 'Troquois', has been carrying the mails between Sydney and Nanaimo, was destroyed by fire early last week at Ganges Harbour. She is a total loss, and uninsured.

A gang of professional yeggmen is operating in Vancouver and one night last week cut through 18 inches of solid masonry in order to reach and blow a safe, in which latter operation they were not successful, as its steel walls resisted seven charges of nitro-glycerine.

A special representative of moving picture theatres in Victoria, Vancouver and New Westminster has been taking Coronation pictures in London and will immediately return to Vancouver to develop his negatives there, expecting to have the films on view in the cities of this province within two weeks.

It is understood that the contract for the new prison farm building for the Provincial government, to be erected in Burnaby and serve in future as a central place of confinement for the longer term prisoners escaping penitentiary confinement, will be awarded during the current month, so that construction may proceed before adverse weather conditions intervene.

NEWS OF THE DOMINION

The Winnipeg police force is to be entirely remodelled, and the "Golden Rule" system in force in Cleveland will be given a trial.

Henry Irwin, an employee of the National Supply Co. of Winnipeg, was killed by lightning during a brief thunderstorm last Thursday.

Hon. Thomas Mayne Daly, police magistrate of Winnipeg, and former minister of the interior, died suddenly last Saturday. He was liked and respected throughout the Canadian West.

George Goulding, the world's one-mile champion, defeated G. E. Larnier, of England, in a three mile walk in Toronto, last Friday. Goulding won by 20 yards.

It is said that the resignation of Dr. J. G. Ruthford, C.M.G., as veterinary-general and live stock commissioner, will go into effect on June 30, and that he will settle in Southern Alberta, where he proposes to go into politics.

Drizzling rain was prevalent throughout the Canadian West on Coronation Day but failed to dampen the enthusiasm of the citizens and parades, demonstrations and church services were held in every hamlet, village, town and city, throughout the country.

Payments aggregating \$18,000 have been received by the Ontario government from the liquor licence holders of the province under the Act passed at the last session of the Legislature, levying a tax upon the daily receipts in excess of certain specified amounts of all bars. The sum thus collected represents the revenue from this source for the first month that the new law has been in force. The provincial authorities believe that the year's income from the tax may be safely estimated at \$180,000.

That the Port of Montreal can be kept open throughout the year is the opinion of Major G. W. Stevens, president of the harbour commission, who has returned to Montreal after a few weeks' absence in England to work out a scheme to reduce insurance rates on vessels using the St. Lawrence route. Port authorities of Europe found no difficulty in keeping navigation open. This they achieved by means of powerful ice breakers, which plowed their way through the ice and were followed by all the ships which wished to either enter or leave the port.

The following under-mentioned horses will travel during the season as stated below:

THE THOROUGHBRED STALLION

Brockhampton 161 Hands

(1st, Staffordshire Show, 1905)
By Wildfire, by Galopin, out of Marigold, by Van Amburgh, and Bonnie Doune by Blair Athol.
Mondays—Travels down west side of Okanagan Lake to Kelowna; at Westbank, 2 p.m.; at Kelowna, 4.30 p.m. Leaves Kelowna, Wednesdays, at 8.30 a.m.

THE HACKNEY STALLION

Agitator Over 16 Hands

(1st, Chesterfield; 2nd, Peterborough; 2nd, Vancouver, B.C.)
By Brave Member, out of Promise by Dangel.
Thursdays—Travels down west side of Okanagan Lake to Kelowna; at Westbank, 2 p.m.; at Kelowna, 4.30 p.m. Leaves Kelowna, Saturdays, at 8.30 a.m.

TERMS—\$20.00 for the season; \$25.00 to ensure. \$5.00 cash on service and \$1.00, groom fee; balance on uninsured mares, 15th July. Colts to be the property of the owner of the horse until service is paid for.
